

Webinar for Kansas WIC Staff:
KWIC 4.5 Release "Sneak Peek"

1

Three Main Changes & New Functionality

1. A **Blood Lead Test** question was added to the **Health Interview** screen for Infants and Children.
2. The **Breastpump Issuance by Client Report** now includes transfers and follow-up dates.
3. Many changes to **Online Nutrition Education**, including completion documentation, appointment type, reminders and reports.

To protect and improve the health and environment of all Kansans

2

Blood Lead Test Question Added to Health Interview Infant:

Health Interview: Health Interview
Currently Viewing: Health Interview

Breastfeeding
Breastfeeding Status:
Date Breastfeeding Stopped: 00/00/0000
Date Formula/MSL Introduced: 00/00/0000

3

Quiz

1. Who do you need to ask "Blood Lead Test in the last 12 months?" and how often do you need to ask the question?

All Children categories at all Certs/Re-Certs.

2. How often is it recommended for most children to receive blood lead tests?

At 1 year and at 2 years. (Or, at 3-6 years if didn't test at 2 years.)

To protect and improve the health and environment of all Kansans

4

Kansas Health Interview – Blood Lead Test

Quiz, continued

3. What do you do for an 11 month old?

Ask if they've been tested yet and document response. Make a referral.

4. What do you do for a 13 month who just had a lead test at 12 months?

Encourage that staff use the Notes field to record age when test occurred and result, if known.

To protect and improve the health and environment of all Kansans

5

Kansas Breastpump Issuance by Client Report

Now includes transfers!

Two new sections:

- Clients Transferred Out of Clinic
- Clients Transferred Into Clinic

Now includes "follow-up" dates!

- "First Follow-Up"
- "Most Recent Follow-Up"

New Yes/No buttons

- Include Returned Breastpumps
- Include Non-Breastfeeding Clients

You must use the Issue Breastpump screen to enter the follow-up note, NOT the general Notes screen!

To protect and improve the health and environment of all Kansans

6

Kansas Breastpump Issuance by Client Report

Breastpump Issuance by Client Report

Show/Hide Report Parameters

Date Range: From 01/01/2020 to 06/00/0000

10

Breastpump Issuance by Client Report

Use Issue Breastpump to add Follow-Up Notes!

Why?

- The dates will appear on the Breastpump Issuance by Client Report.
- The note will appear as an auto-generated note in Notes.
- This is where SA staff will look at MES and where Supervisors should look, too.

Issue Breastpump

Client Information:
Zachariah D Tyne
DOB: 02/14/1998, 23 Years
Reason: Breastfeeding: Difficulties
Priority: 1
Delivery Date: 09/17/2020

Issue Breastpump:
Serial Number: 3545941
Date Received: 03/02/2021
Signature Type: Electronic
View Signature

Select the type of Breastpump to Issue:
☒ Multi-User Electric
☐ Single User Electric
☐ Hospital
☐ Supplemental Nursing System (SNS)
☐ Double Pumping Kit

Inspection Required Every: 3 months
Date Returned: 03/02/2021

Reason Provided: Infant Unable to Nurse Effectively
 Note: Baby doesn't latch and not tolerating formula. Mother wants to try pumping breastmilk for baby.

Follow-Up Notes:
 New: Pumping is going well. Pumps on breaks at work, twice a day.

To protect and improve the health and environment of all Kansans

11

Breastpump Issuance by Client Report

Oops!

What if you forgot?! Instead, you wrote a detailed note for breastpump follow-up in regular Notes (or BFPC Notes)....

You could open up the Issue Breastpump window and make a follow-up note that simply refers to your other note!

To protect and improve the health and environment of all Kansans

12

Main Features:

1. Client scheduled for **"ONE"** appointment type.
2. Client receives text or email **reminder** 7 days prior to **"ONE"** appointment.
3. Lesson Topic for WICHealth.org lesson is **automatically moved over** in Topics on the date the lesson is completed.
4. There is a new report for you: **"Online Nutrition Education Report"**.

Please see document **"Online Nutrition Ed-Brief Summary"** and **"Online Nutrition Ed-Detailed Document"** for all the details!

To protect and improve the health and environment of all Kansans

15

To protect and improve the health and environment of all Kansans

16

KWIC is so smart that it also...

Moves the Topic over for all appropriate client categories within the family group with the same eWIC ID.
Foster children included!

To protect and improve the health and environment of all Kansans

18

BUT.....

You do have to move over the Trigger Topic in KWIC!

Available Topics

Topic	Category
Secondary Task: T&S for PC, PP, or before Hibert for L, BR, C	L, BR, C
A Guide to Food Safety	L, BR, C
Managing Food Safety in Family Home	L, BR, C
Safe Behavior	L, BR, C
Safe Behavior Lesson - How to Sleep	L, BR, C
Safe Behavior Lesson - Is Baby Hungry?	L, BR, C
Safe Behavior Lesson - What is the Baby Doing?	L, BR, C

Discussion Topics

Topic	Category	Returning to
Secondary Task: T&S for PC, PP, or before Hibert for L, BR, C	L, BR, C	Returning to Work or School

To protect and improve the health and environment of all Kansans

19

Clients must still take the appropriate WICHealth.org lesson for their category!

Example:

KWIC moved over the Topic for the lesson, "Returning to Work or School" for the Postpartum Mom but not her children because it was not an appropriate topic for the Infant and Child categories.

What do you do if this happens?

Three options:

1. Ask Mom to select another lesson for her Infant/Child. Use the [handout](#) to help her.
2. While you (CPA) have her on the phone, ask if she would like to talk to you for a few minutes about how her child(ren) are eating instead. Complete an NEI over the phone.
3. While you (Clerk) have her on the phone, ask if she would like to talk about a Topic for a few minutes. Use the [lessons on our website](#) as remote NE+. The new "Sugar Sweetened Beverage" [lesson](#) has steps on page 4 to follow in order to count it as a remote NE+ appointment.

To protect and improve the health and environment of all Kansans

20

Online Nutrition Education Documentation and Reminders

Important!

All clients will need to use their **eWIC ID** to login to WICHealth.org.

This process will not work if using Client ID!

If a client has their WICHealth.org account set up using Client ID, they will need to create a **NEW account** using eWIC ID.

21

Online Nutrition Education Documentation and Reminders

There's one problem....

Clients probably won't know if they set up their WICHealth.org account with their eWIC ID or their Client ID.

It will be listed:

- On the bottom of the first page they see after they logged into their account
- Certificate shows "WIC ID" number.

22

Online Nutrition Education Documentation and Reminders

A graphic for a 'Certificate Of Completion' from 'wichita'. The certificate is white with a blue border. At the top is the 'wichita' logo, which consists of a stylized blue 'W' made of two overlapping shapes, followed by the word 'wichita' in a blue sans-serif font. Below the logo, the text 'Certificate Of Completion' is centered in a bold, black, sans-serif font. Underneath this, the text 'Bayline completed Help Your Baby Sleep Safe and Sound' is centered in a smaller, black, sans-serif font, followed by the date 'on 10/10/2022'. In the center of the certificate is a large blue circle containing a white checkmark. Below the circle, the word 'GREAT' is centered in a bold, black, sans-serif font. Underneath 'GREAT', the text 'Hoping you and your baby to bed better, on their back, and in a crib.' is centered in a smaller, italicized, black, sans-serif font. At the bottom of the certificate, the text 'ACTION REQUESTED' is centered in a bold, black, sans-serif font, followed by the text 'Use this lighting and sound only, light/bassinet.' in a smaller, italicized, black, sans-serif font.

A few important fixes in 4.5

The following issues have been fixed that:

- caused existing group members, already fully certified, to incorrectly have their issuances limited on the **Issue Benefits** window when a 30 Day Temp client was added to the group.
- incorrectly caused the previous Caregiver to display on the **Card Management** window instead of the current Caregiver when a card was inactivated for Foster Children after the client switched group has been fixed.
- incorrectly caused the "Alcohol and/or Substance Use" and "Woman or Primary Caregiver w/ Limited Ability" risk factors to auto generate on the **Assign Risk Factor** window when Less than 1 day/week and less than 4 drinks/day was selected on the **Health Interview ATOD** window.
- The issue that caused a Card to reflect an incorrect status when using the Unlock PIN function on the **Card Management** window has been fixed.

To protect and improve the health and environment of all Kansans

29

Summary

Health Interview - Blood Lead Test

- Ask about "Blood Lead Test in last 12 months" for all Child certs/re-certs. Document on Health Interview screen.
- Refer children to have blood lead test at 1 and 2 years (or 3-6 if missed it at 2 years).

Breastpump Issuance by Client Report

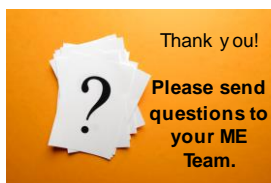

- Includes transfers during the date range selected.
- Write all breastpump follow-up notes on Issue Breastpump screen.

Online Nutrition Education Documentation and Reminders

- Schedule clients planning to do WICHealth.org appointments with the new "oNE" appointment type.
- Clients need to use their eWIC ID to set up their WICHealth.org accounts
- KWIC will automatically record the WICHealth.org lesson Topic on the date it was completed, if it was for appropriate client category.
- Use the new "Online Nutrition Education Report" to track clients with "oNE" appointment types.
